

Neng-Huei (George) Lin,  
National Central University, Taiwan

Dr. Lin is a Professor in the Department of Atmospheric Sciences and Department of Chemistry at the National Central University (NCU), Taiwan. He served as the Department Chairperson in 2002-2005, and the Dean for the Office of Student Affairs in 2006-2009 at the NCU. Dr. Lin's research interests include atmospheric baseline measurements, aerosol-cloud-radiation interaction, cloud chemistry and physics, precipitation chemistry, long-range transport processes of acid pollutants, Asian dust and biomass burning. He is the coordinator of the Taiwan Acid Rain Network, and the Lulin Atmospheric Background Station (LABS; 2862 m MSL) in central Taiwan. He has been also heavily involved in many international field campaigns, such as ACE-Asia, ABC/EAREX, BASE-ASIA and 7-SEAS. He served as the President of Taiwan Association for Aerosol Research (TAAR) in 2009-2011, and now is the Fellow and Honorary President of TAAR. Dr. Lin is the Editor-in-Chief of *Aerosol and Air Quality Research*, and serves as the Editorial Board of *Atmospheric Environment* and *Asian Journal of Atmospheric Environment*. He has been serving the member of many technical and advisory committees on national and ministry levels.
